</table>
**1.0. Highway**

**1.1. Data**

11. Insurance Institute for Highway Safety; Big Trucks and Highway Safety; Arlington, VA. (1985).
17. National Safety Council; Fleet Accident Rates; Chicago, IL. (1987 et al.).

23. Vic Roads; Extracts from Road Accident Database; Victoria, Australia.

1.2. Methodology

1.2.1. Qualitative

1.2.2. Quantitative

44. ICF Technology; Risk Assessment of Nitrogen Tetroxide Transportation Route from Cedar Chemical Corporation to VAFB: California Segments Only; San Antonio, Texas. Prepared for Transportation Office, Kelly Air Force Base. (1988).

1.3. Other

2.0. Marine

2.1. Data

57. Arthur D. Little, Inc; Risk Assessment for Gas Liquids Transportation from Santa Barbara County; prepared for Santa Barbara County Resource Management Department. (1990).

62. Department of the Army, Corps of Engineers; Waterborne Commerce of the United States, Calendar Year 1986; Part 2—Waterways and Harbors—Gulf Coast, Mississippi River System and Antilles; WRSC-WCUS-86-2.

63. Exxon Production Research Company; Review of Oil Spill Occurrences and Impacts; (1989).

2.2. Methodology

2.2.1. Qualitative

2.2.2. Quantitative

2.3. Other

129. U.S. Coast Guard; Office of Merchant Marine Safety; Draft Regulatory Analysis and Environmental Impact Statement for Design Standards for New Tank Barges and Regulatory Action for Existing Tank Barges to Reduce Oil Pollution Due to Accidental Hull Damage; Dockets #75-083 and #75-083a. (1979).
3.0. Multiple Modes

3.1. Data

132. CALTRANS; Transportation of Hazardous Materials in California by Highway and Rail; Report to the Legislature. (1986).

147. Marshall, V.; Modes and Consequences of the Failure of Road and Rail Tankers Carrying Liquified Gases and other Hazardous Liquids; Bath, U.K. Reliability on the Move: Safety

163. TNO; FACTS: A Databank for Accidents with Hazardous Materials; TNO Environmental and Energy Research, Department of Industrial Safety.

165. Transportation Systems Center; Transportation Safety Information Report, Quarterly Highlights; (various).

166. U.S. Department of Transportation; Annual Report on Hazardous Materials Transportation; Research and Special Programs Administration (Annual).
3.2. Methodology

3.2.1. Qualitative

3.2.2. Quantitative

Transportation Risk Analysis Topical Bibliography

3.3. Other

4.0. Pipeline

4.1. Data

250. de la Mare, R. F.; Pipeline Reliability; University of Bradford, VERITAS. 80-0572. (1980).

259. U.S. Department of Transportation, Research and Special Programs Administration; Annual Report on Pipeline Safety—Calendar Years 1981 through 1990; (various).

260. U.S. Department of Transportation, Research and Special Programs Administration; National Transportation Statistics—Annual Report; (1990 et al.).

4.2. Methodology

4.2.1. Qualitative

4.2.2. Quantitative

4.3. Other

279. Eiber, R. J.; Jones, D. J.; Kramer, G. S.; Outside Force Causes Most Natural Gas Pipeline Failures; Oil and Gas Journal. pp. 52–57.

290. U.S. Department of Transportation; An Examination of the Feasibility of Regulating Excavators; Washington, DC. (1990).

291. U.S. Department of Transportation, Office of Pipeline Safety; Rapid Shutdown of Failed Pipeline Systems and Limiting of Pressure to Prevent Pipeline Failure Due to Overpressure; Washington, DC. (1974).

292. U.S. Department of Transportation, Office of Pipeline Safety; Transportation of Highly Volatile, Toxic, or Corrosive Liquids by Pipeline; Washington, DC. (1976).

5.0. **Rail**

5.1. **Data**

294. Association of American Railroads; Analysis of Class I Railroads; Chicago, IL. Economics and Finance Department (Annual).

308. National Transportation Safety Board; Railroad Accident Reports; Washington, DC.

5.2. Methodology

5.2.1. Qualitative

5.2.2. Quantitative

5.3. Other

6.0. Related Topics

360. Slater, C.; Hall, G.; 1992 County and City Extra; Annual Metro, City and County Data Book; 1990 U.S. Census based population data.
361. Southwest Research Institute; Analytical and Experimental Study to Improve Computer Models for Mixing and Dilution of Soluble Hazardous Chemicals; U.S. Coast Guard. Report No. CG-D-1-83. (1982).
